# NOT ALL MAMMOGRAMS ARE THE SAME

One in eight women will develop breast cancer during her lifetime. That's why where you go for your annual breast screening is so important.

Choose MD Anderson Cancer Center for your next mammogram, and you'll receive a 3D mammogram interpreted by dedicated experts providing results you can trust — from the start.

Our team is exclusively focused on breast imaging and includes fellowship-trained breast radiologists and compassionate nurse navigators committed to providing the highest level of expertise and care. In most cases, patients will receive their imaging results the same day.

Schedule your mammogram today for the peace of mind you'll only get from MD Anderson.

#### CHOOSE MD ANDERSON FOR YOUR NEXT MAMMOGRAM.

# Welcome to the 11th Annual Wise Conference

This year's charity of choice is Emerging Grace Ministries, a nonprofit organization providing long-term care programs to heal child sex trafficking survivors. https://emerginggrace.org

We appreciate our sponsors, vendors, attendees and volunteers for your continued support. Thanks to the support of local women's business associations, educators, mentors and community leaders, we are able to provide the necessary resources to Inspire, Support and Empower.

Carol Gooch, the founder of Montgomery County Association of Business Women and Kiki Koymarianos, owner of Women on a Mission to Earn Commission, are proud co-founders of the WISE Conference and want to welcome you today.

Meet our hosts and the founders

Women On A Mission To Earn Commission (WOAMTEC) is a premier networking group designed to appeal to the businesswoman who is already successful and simply wants to grow her business. It is not designed for commissioned sales people only, rather, any strong female who wants to increase her company's bottom line and overall revenue.

We want to attract women who have achieved success and do not need to be taught, but rather have the knowledge to teach each other on a social and interpersonal level.

Our philosophy is not to compete with any other networking organization, but instead to offer a pure social, stress-free networking atmosphere, where women can simply be women.

WOAMTEC also offers a networking opportunity where women can focus on keeping their priorities in order of faith, family, career without feeling guilty about it! For more information visit:

www.woamtec.com

The Montgomery County Association of Business Women (MCABW) was founded by Carol Gooch in 2005. The mission of this non-profit association is to provide a forum for Montgomery County Business Women to develop and enhance professional and personal relationships with their peers.

The ladies of MCABW will help you learn and succeed. Discover more opportunities to connect with other women in our community by attending one of our monthly lunches, coffee meetings, or evening mixers. MCABW is proud to award scholarships annually to female graduating seniors from Montgomery County high schools. For more information visit us at www.mcabw.org

# Master of Ceremonies Missy Herndon

A graduate of Texas A&M University, Missy Herndon is a former PR consultant turned stay-at-home mom and social editor/writer for a local magazine while raising her young boys.

Her journey changed paths when her oldest son, Will, then 6 years old, was diagnosed with juvenile Batten disease and given a fatal prognosis.

In 2009, Missy and her husband, Wayne, co-founded HOPE: The Will Herndon Research Fund. The mission is simple: The fund has raised nearly \$9 million to date in The Woodlands community and continues raising awareness and funds to find a treatment to save Will. The community effort has led the research to the FDA, where the treatment received clinical trial approval in the Fall of 2021! After 13 long years of research and drug development, the trial began in February of this year, and Will is Patient #1!

In 2012, Missy went back to the workforce, landing a dream job at Interfaith of The Woodlands as the Director of Programs and Services. In 2016, Missy was promoted and now serves as President and CEO of Interfaith of The Woodlands and Interfaith Community Clinic.

As CEO of Interfaith, Missy oversees nearly 400 employees and manages the \$28+ million non-profit organization that focuses on providing basic needs to our neighbors in crisis, senior programs, employment services, community publications, early childhood education and resources for those facing challenges.

The Interfaith Community Clinic is the only charity clinic serving the medical, dental and behavioral health needs of our uninsured neighbors residing in all of Montgomery County. In her spare time, Missy loves spending time with her family and friends, serving her community and working on HOPE.

# TAKE CHARGE OF YOUR HEALTH

Dr. Ashley Prince DC, MBA Owner of Prince Health

"The doctor of the future will give no medicine, but will interest his patient in the care of the human frame, in diet and in the cause and prevention of disease."

- Thomas Edison, 1903

# The Best Investment You will Ever Make!

Consider your health is like the ultimate bank account where as account manager, and you can make deposits or withdrawals. At Prince Health, our Chiropractic Wellness Plans and DNA Customized Supplementation are the perfect straight line to your optimum wellness deposits. I always recommend a lifestyle of common sense deposits, including:

**CLEAN WATER - for glowing** complexion & immune support

**OXYGEN** - Deep breathing for a stronger immune system

**NUTRITION** - With whole foods to maintain peak performance.

FITNESS - Stimulate growth, fat loss, and oxygen intake through accessible fitness routines

NERVE SUPPLY - Chiropractic care to help the spine be free of interference, increasing whole body health

**YOUR DNA - Customized** supplementation to support the blueprint for your health

# 3 Strategies to Cultivate Your Resilience

By Nhi Aronheim Author: Soles of a Survivor

One of the most important muscles we can develop is resilience and how to use pain for positive growth. Since resilience is our ability to face adversity, overcome challenges, and emerge stronger than ever before, it is beneficial for us to learn to build resilience and use our pain and struggles as a foundation for our strength. Having resilience will differentiate those who crumble in the face of adversity from those who rise above it.

Here are the three strategies I've learned how to improve our resilience and how to find beauty and strength in our pain and hardships:

#### 1. A growth mindset

It's important to have a positive mindset filled with hope, even when the odds are against you. It is the belief that "This too shall pass" and that you will eventually achieve your goals.

#### 2. Adaptability

Accept what you can and cannot control, and have flexible and adaptable thinking. When you encounter challenges, be willing to adjust your strategies accordingly.

#### 3. Perseverance

Perseverance is the determination to keep going even when you are faced with pain and hardships. There will be obstacles and setbacks along the way. It's easy to get discouraged when things don't go as planned. Resilience is the ability to bounce

back from failure. Many people are afraid of failing and give up too soon. Just remember that failure is part of the process.

Since resilience can be a cultivated trait, we can build it by having a growth mindset, adaptable thinking, and perseverance. When faced with adversity, or setbacks, we should have an easier time responding, growing, and evolving from those painful experiences.

Nhi's book is available on My Village Books https://myvillagebooks. indielite.org/ book/9781510760288

# THE AVERAGE AGE OF A SEX TRAFFICKING VICTIM IS 14-15 YEARS OLD.

Dr. Devan Ford
Empowering Women
Through Inclusive
Practices

Dr. Devan Ford, Ed.D., joined MD Anderson in 2019 as project director for faculty diversity, equity and inclusion. She has over a decade of experience in DEI work with special emphasis on gender equity and unconscious bias. Dr. Ford has a background in higher education, and previously served as a senior DEI leader and faculty member at the University of Houston. She is currently a lecturer of women's gender and sexuality studies at UH.

In 2021, Dr. Ford moved to the department of Diversity, Equity and Inclusion as a DEI practitioner focused on providing DEI education, training, coaching and consulting across the MD Anderson workforce. Additionally, she serves as program director ad interim for the department. She obtained a Bachelor of Arts in Organizational Communication from Texas Southern University, a Master of Science in Higher Education Administration from Texas A&M University and a Doctorate in Higher Education Administration from the University of Arkansas.

Additionally, Dr. Ford holds several training certificates and certifications, including cultural intelligence, unconscious bias, restorative justice in academic medicine, diversity and inclusion in the workplace, cultural competence, interpersonal communication, mediation and conflict resolution, leadership, and life coaching.

## The 2023 WISE Conference Charity of Choice Emerging Grace Ministries

Victims of child sex trafficking that receive shortterm care are more likely to end up back in trafficking. Emerging Grace Ministries provides one of the first long-term care programs to heal child sex trafficking survivors.

**REVEAL:** We know this fight cannot be won alone. We are reaching out to our communities and providing education to end the exploitation of children.

**RECOVER:** When a child sex trafficking victim is rescued, they are taken from everything they know. It takes time for them to be able to heal and avoid re-victimization. We are one of the first long-term care programs to allow full recovery.

**RENEW:** Renew the spirit of survivors. Our campus will be dedicated to the renewing of each child's mind, body, and spirit.

In March of 2023, Emerging Grace Ministries purchased its first property. Remodeling is well underway. Visit https://emerginggrace.org

## Navigating Life's Roller Coaster: How Mental Strength Shapes Our Path to Success

### By Christin Cherry Owner/Operator Entreprocess

In the world of entrepreneurship, success can be an exhilarating ride. Serial entrepreneur Christin Cherry, who, along with her husband, nurtured a nationwide franchise with over 50 units, knows this all too well. However, their journey took an unexpected turn when the COVID-19 pandemic hit, pushing them to the brink. In the face of adversity, they made the challenging decision to hand over their company to investors.

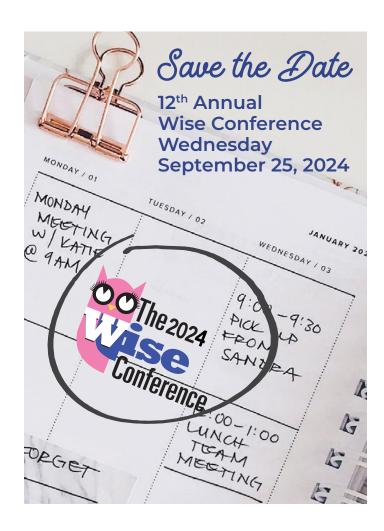

Christin's story is a testament to the power of mental strength, which she has distilled into three vital lessons:

#### 1. Embrace Your Purpose

Beyond mere survival, identifying and whole-heartedly embracing your purpose can be the driving force that propels you forward. Purpose serves as the anchor for your determination, giving you direction and a reason to persevere, even in the face of daunting challenges.

#### 2. Cultivate Self-Belief

Building mental strength begins with nurturing unwavering self-belief. It's about acknowledging your intrinsic worth and your capacity to overcome adversity. Self-belief forms the bedrock of resilience, providing you with the inner conviction that you have what it takes to tackle life's obstacles.

#### 3. Foster Disciplined Confidence

Confidence can fluctuate, but discipline can help you regain and reinforce it. Disciplined confidence means systematically strengthening your self-assurance, ensuring that you can face setbacks with unwavering determination. It's about developing a resilient mindset that empowers you to bounce back stronger after each challenge.

In life's roller coaster of highs and lows, remember these lessons. Embrace your purpose, cultivate self-belief, and foster disciplined confidence. With these pillars of mental strength, you can not only survive but thrive, emerging from challenges stronger and more resilient than ever.

# "Bouncing Back" A Lesson in Resilience

By Susanna Dussling Keynote Speaker/Trainer/Consultant

Are you struggling to be more resilient, especially in today's workplace? Is your workplace struggling with employee morale and high turnover? Is your staff apathetic, stressed, and overwhelmed?

Being resilient in the workplace begins with you! Using real life stories, you will learn tips on how to improve your personal resiliency which will help you improve workplace resiliency in this program. Resilience is an understatement when describing Susanna Dussling. She is a deaf, bilateral cochlear implant wearer who does not let her hearing loss stop her from living a meaningful and purposeful life. Currently, Susanna thrives on presenting inspirational programs and training to organizations. Her theme is "Bouncing Back" therefore, "Get Ready for the Ride of your Life" when Susanna tells of her hearing journey.

Susanna is the owner of Dussling Speaks, LLC a full service leadership development company. She partners with organizations to uplift employee morale, improve employee engagement, and reduce staff turnover by empowering leaders to conquer change and boost their resiliency.

As a speaker and trainer, Susanna motivates, inspires, and educates her audience on Resiliency, Leadership, and Change.

Her programs are interactive, energetic, conversational, laced with humor, and personal stories gleaned from her past experiences as a retail leader, bilateral cochlear implant wearer, and equestrian. Susanna has 20+ years' experience in retail management with a Master's degree in Human Resources Development from the University of Houston.

She is the author of "Sunny and her Cochlear Implants" a children's book about hope, acceptance, and a "can do" attitude.

As an equestrian, Susanna trains, instructs, and shows with Arabians, Morgans, and American Saddlebreds. Susanna is the owner of "Dussling Fine Finishes, a full service upscale furniture refinishing company.

When not working, Susanna enjoys spending time outdoors and being with friends and family. She lives in Tomball, Texas with her 2 pets: Maverick and Charlie. Learn more about Susanna at www.susannamdussling.com

## Building a Multimillion Dollar Business from the Kitchen Table

By Meredith Jurica Owner/Founder

From discovering how to run a business with no business background, to utilizing out of the box marketing techniques, I hope sharing my story will inspire you to push forward and reach goals you

have for your own business. I can't wait to share my journey that started with a simple idea and led me to appear on Shark Tank with my homemade product that is now carried in over 5,000 stores nationwide. It was not always easy and I met many challenges, but through the ability to adapt quickly and change ideas and plans on a whim, I was able to conquer them.

We are full speed ahead with many plans for the future and I hope that you take away some of my most coveted ideas, inspirations, and strategies. I look forward to meeting all of you and helping you discover new ways to reach your goals!

# **Equity Is a Game Changer for Homeowners Looking To Sell**

By Kiki Koymarianos M.B.A. – CDPE – GRI – ABR - SRES

If you're a homeowner, you might be torn on whether or not to sell your house right now. Maybe that's because you don't want to take on a higher mortgage rate on your next home. If that's your biggest hurdle, understanding your equity may be exactly what you need to help you feel more comfortable making your move.

#### What Equity Is and How It Works

Equity is the current value of your home minus what you owe on the loan. And recently, that equity has been growing far faster than you may expect.

Over the last few years, home prices rose dramatically, and that gave your equity a big boost very quickly. While the market has started to normalize, there's still an imbalance between the number of homes available for sale and the number of buyers looking to make a purchase. And it's because homes are in such high demand that prices are back on the rise today. Rob Barber, CEO of ATTOM, a property data provider, explains: "Equity levels were high even during the recent downturn, and now they are going back up and better than ever."

#### How Equity Benefits You in Today's Market

With today's affordability challenges, that equity can be a game changer when you move. Here's why. Based on data from ATTOM and the Census, nearly two-thirds (68.7%) of homeowners have either paid off their mortgages or have at least 50% equity. That means roughly 70% have a tremendous amount of equity right now.

Once you sell your house, you can use your equity to help with your next purchase. It could be some (if not all) of what you'll need for your next down payment. It may even be enough to allow you to put a considerably larger down payment on your next home, so you don't have to finance quite as much.

And, if you've been in your current house for years, you may have even built up enough equity to pay in all cash. If that's true for you, you'd be able to avoid borrowing altogether, so you wouldn't have to worry about today's mortgage rates.

#### How To Find Out How Much Equity You Have

The best way to learn how much you have is to reach out to a trusted real estate agent for a Professional Equity Assessment Report (PEAR).

#### **Bottom Line**

If you're planning to make a move, the equity you've gained can make a big impact. To find out just how much equity you have in your current home and how you can use it to fuel your next purchase, connect with me for a FREE, no strings attached market analysis of your current home.

Wise 2023 Scholarship Winners

The Wise 2023 Scholarship criteria included community involvement, leadership and employment history. Applicants were asked to furnish three letters of reference and define how the scholarship would help them launch or grow their business, or help them climb the corporate ladder to success. Thank you to all our applicants this year.

## Stacey Abella

Personal vision: My vision for my life is to be present and truly alive in the moment, to learn and grow every day, and to fully utilize my skills and talents to make a positive impact on my family, friends, and the world.

How will the scholarship be used? Though I have already published the paperback, hardcover, and Kindle versions of my book, I have not yet produced the audiobook, the most lucrative of the formats. I would therefore leverage the WISE conference scholarship funds to record, produce, and publish the audiobook to my novel. In addition, I'm very excited that my publisher will be advertising my book on a billboard in New York Times Square this fall. This is an incredible opportunity to further promote my book, especially if I can be there for photo and marketing opportunities, while the billboard is running. The WISE conference scholarship funds would enable me to travel to New York to capitalize on that opportunity.

## **Dawn Candy**

Personal vision: My vision for my company includes having systems in place and empowered employees to carry out the day-to-day business of I Promote You. dawn@ipromoteyou.biz

How will the scholarship be used? I would apply the scholarship to further my education as a business owner and in my industry to gain additional knowledge in the upcoming trends, innovations in technology for business, specifically digital marketing opportunities for I Promote You.

#### Sheri McBride

Personal vision: I really thrive on being a servant leader. Helping out just comes naturally to me. I've got

this strong urge to provide assistance wherever I can. You know, it's like I'm wired to revolve around helping others. My big goal? Well, I really want to be that go-to person people can trust when it comes to seniors and their families in Montgomery County. sheri@generationsconcierge.LIFE

How will the scholarship be used? It would help me afford certifications that are super important and give me the time I need to do more than just the marketing, sales, and day-to-day tasks. Plus, it would open doors for me to keep learning and growing personally and professionally. I'm not just looking to stay where I am as a move manager and realtor – I've got bigger plans!
